Greenway Selected by Health Information Exchanges and Regional Physician Groups

Bio-Medicine.Org

CARROLLTON, Ga., Aug. 31 /PRNewswire/ -- Greenway Medical Technologies, Inc. today announced that four additional Health Information Exchange [1] (HIE) programs, Independent Physician Associations (IPA) and regional medical centers have selected PrimeSuite® [2], the company's integrated electronic health record (EHR) practice management and interoperability solution, to connect group practices and streamline clinical, financial and administrative functions.

"Greenway is very gratified to be selected by this wide variety of healthcare organizations that recognize Prime*Suite*'s ability to meet their data exchange and interoperability needs," said Greenway President and CEO Tee Green. "Healthcare leaders are realizing the requirements of interconnected patient care, quality data exchange and data liquidity, and Greenway has built its platform from the ground up based on these critical functionality and interoperability goals."

The endorsements announced today include:

- Marion County Medical Society/Healthy Ocala HIE, Marion County, Fla.
- Central Jersey Health Information Exchange Project, Middlesex County, N.J.
- The 1200-member Highlands Physicians, Inc. IPA, Kingsport, Tenn.
- Southern Ohio Medical Center/SOMC Medical Care Foundation, Portsmouth, Ohio

The Marion County Medical Society has endorsed Prime*Suite* to 500 physicians practicing within the newly-established **Healthy Ocala HIE** throughout Marion County, Fla.

"The versatility of Greenway's EHR was a deciding factor in our analysis," said David Willis, MD, medical director of Healthy Ocala. "Prime*Suite* also has the ability to satisfy a variety of specialties and the data exchange option to tie practices together and share information."
