Nonin Medical to Introduce New Innovations at ERS 2010 Annual Congress

Bio-Medicine.Org

MINNEAPOLIS, Sept. 20 /PRNewswire/ -- Nonin Medical, Inc., a leading innovator of noninvasive physiological monitoring solutions, today introduced new pulse oximetry products, a new clinical guidebook and a new European sales, distribution and customer service center at the European Respiratory Society (ERS) 2010 Annual Congress in Barcelona, Spain.

Commenting on the company's presence at ERS 2010, Kevin McGowan, vice president, sales, said, "This year, Nonin Medical will focus on providing clinicians with highly versatile pulse oximetry and capnography solutions, which can help them better assess and manage patients with respiratory disorders in diverse settings ranging from the lab to the hospital to the home. Nonin is able to offer this degree of versatility because our industry-leading PureSAT® technology delivers proven accuracy in the widest range of patient populations and clinical settings. In addition, we are pleased to make available the 'Clinical Use of Pulse Oximetry' pocket reference guide, which can help clinicians better recognize patients with chronic lung disease symptoms. Finally, we are excited to announce the opening of Nonin Medical AB, our new sales, distribution and service center, which is designed to provide our European customers with more efficient and cost-effective support."

Products and technologies will be on display at Nonin Medical's booth #C.100 at the Fira Barcelona, from Sunday, September 19, to Tuesday, September 21, 8:30 a.m. to 5:00 p.m., and Wednesday, September 22, 8:30 a.m. to noon. Highlights include:

New versatile wrist-worn pulse oximeter for European distribution: WristOx2™, Model 3150

Engineered with Nonin Medical's PureSAT® SpO2 technology, the WristOx2™, Model 3150 is the most versatile wrist-worn pulse oximeter available with proven performance in the widest range of patient populations and settings. Built on a cross-functional platform, the
