BIOLASE to Present at the Needham Healthcare Conference in New York City

The Associated Press

BIOLASE Technology, Inc. (NASDAQ: BLTI), the World's leading dental laser manufacturer and distributor, today announced that management is scheduled to make an investor presentation at the 10th Annual Needham Healthcare Conference on Wednesday, April 6, at 3:20 pm Eastern Time. The conference is being held April 5-6, at the New York Palace Hotel in New York City.

The presentation will be accessible by live webcast in the Investors section of the BIOLASE website at www.biolase.com (http://www.biolase.com) . A replay of the webcast will be available on the BIOLASE website for 30 days.

About BIOLASE Technology, Inc.BIOLASE Technology, Inc., the World's leading Dental Laser company, is a medical technology company that develops, manufactures and markets dental lasers and also distributes and markets dental imaging equipment, products that are focused on technologies that advance the practice of dentistry and medicine. The Company's laser products incorporate patented and patent pending technologies designed to provide clinically superior performance with less pain and faster recovery times. Its imaging products provide cutting-edge technology at competitive prices to deliver the best results for dentists and patients. BIOLASE's principal products are dental laser systems that perform a broad range of dental procedures, including cosmetic and complex surgical applications, and a full line of dental imaging equipment. Other products under development address ophthalmology and other medical and consumer markets.
