Medical Device Seals Life Science Seal Solutions - Trelleborg Sealing Solutions

TrelleborgSeals

Seals and Bearings used in Medical Device manufacturing are featured in this video. Trelleborg Sealing Solutions: http://www.tss.trelleborg.com [1] Online Product Brochures: http://www.tss.trelleborg.com/com/www/en/products/download_area_1/englis... [2] email: Lifescience.Seals@trelleborg.com [3] Local contacts and phone numbers: http://www.tss.trelleborg.com/com/www/en/contact/worldwide_1/Worldwide_2... [4] Medical applications require sealing systems that operate in aggressive media and often in vacuums. Performance is critical in this industry, and engineers must be confident that components will provide unfailing performance. Trelleborg Sealing Solutions offers seals and bearings that can meet the most demanding of operational requirements and provide long service life. In particular, we have developed high-speed rotary seals for medical devices and surgical drills. Trelleborg Sealing Solutions also offers a range of silicone tubing, extruded profiles, over-molded assemblies, sanitary gaskets and unique LIM (Liquid Injection Molding) products for orthopedics. Applications include feeding pumps, drug-dispensing equipment, catheters, diagnostic equipment, disposable fluid transfer manifolds and closure assemblies, filtration gaskets, dialysis machines and processing equipment.
