Wuzhou Changlian Introduces New Thermometer Series

Bio-Medicine.Org

SHENZHEN, China, June 8, 2011 /PRNewswire-Asia/ -- To thank customers for their continuous support of our health care products including infrared thermometers [1], heart beat watches, blood pressure monitors and so on, Shenzhen Wuzhou Changlian International Trading Co. has decided to offer these products with discounts [1] ranging from 65-20%.

To adjust to market needs and offer more suitable products to customers, Wuzhou Changlian has introduced more models in their thermometer series. We offer an infrared thermometer for children with illness or potential illness. It works quickly, effectively and is highly portable. The thermometer model has an LCD digital display, is easy to read, and some of them show hygrometer [1] results. To further expand the series, we now are listing electronic thermometers for high temperature tests in cooking, industry, or lab testing. These use a rotation dock to adjust to a most suitable degree.

Besides these multifunctional [1] products, the company has also introduced some equipment to stay healthy, such as a precise kitchen scale to calculate sugar or calories.

During all of June, customers who wholesale more than 5 (5 included) of the same product will get a discount of 21% and 34% and an extra gift for more than 10 products in one order, without inputing the promotion code. Free shipping is adopted for each product.

To know more about the discount products and Wuzhou Changlian please check the link www.thermometersale.com [1].
