Isis Pharmaceuticals to Present at the Stifel Nicolaus 2010 Healthcare Conference

Bio-Medicine.Org

CARLSBAD, Calif., Sept. 8 /PRNewswire-FirstCall/ -- Isis Pharmaceuticals, Inc. (Nasdaq: ISIS [1]), the leader in antisense therapeutics, today announced that management will present a company overview at Stifel Nicolaus' 2010 Healthcare Conference on Thursday, September 16, 2010 at 8:35 a.m. ET at The Four Seasons Hotel in Boston, MA.

A live audio webcast of the presentation will be available on the "Investors & Media" section of the Company's Web site, www.isispharm.com [2]. A replay of the presentation will be available on the Isis Web site within 48 hours and will be archived for a limited time.

ABOUT ISIS PHARMACEUTICALS, INC.

Isis is exploiting its expertise in RNA to discover and develop novel drugs for its product pipeline and for its partners. The Company has successfully commercialized the world's first antisense drug and has 23 drugs in development. Isis' drug development programs are focused on treating cardiovascular, metabolic, and severe neurodegenerative diseases and cancer. Isis' partners are developing antisense drugs invented by Isis to treat a wide variety of diseases. Isis and Alnylam Pharmaceuticals are joint owners of Regulus Therapeutics Inc., a company focused on the discovery, development and commercialization of microRNA therapeutics. Isis also has made significant innovations beyond human therapeutics resulting in products that other companies, including Abbott, are commercializing. As an innovator in RNA-based drug discovery and development, Isis is the owner or exclusive licensee of over 1,600 issued patents worldwide. Additional information about Isis is available at www.isispharm.com [2].
