Northridge Cosmetic Dentists, Dr. Michel Elyson and Dr. Ramin Assili, are Now Offering Advanced Tooth Colored Restorations to Restore Smiles

Bio-Medicine.Org

NORTHRIDGE, Calif., April 2, 2012 /PRNewswire/ -- No matter the advances that take place in the field of dentistry, millions of Americans are suffering with tooth damage and decay every single day. According to the Center for Disease Control and Prevention, nearly 25 percent of all adults as well as 16 percent of all children have untreated dental caries. In order to restore the integrity and appearance of smiles, the most trusted Northridge dentist [1], Dr. Michel Elyson, and Dr. Assili are now offering all locals advanced tooth colored dental treatments for their cavities.

Traditional fillings are made with an amalgam of metals, such as tin and silver, due to their durability, among other advantages. Unfortunately, many patients have found that these metal fillings to be unsightly, uncomfortable, and potentially harmful. This is why one Northridge cosmetic dentist is now offering revolutionary new resin fillings that can be matched to the color of teeth. Patients with untreated cavities or silver fillings no longer need to suffer with unsightly and uncomfortable treatments.

At their dental office, Dr. Elyson and Dr. Assili can quickly replace metal fillings with tooth colored resins for a more pleasing and uniform appearance. They also offer a full line of restorative, general, and cosmetic dentistry options including Zoom teeth whitening, porcelain veneers, dental implants, Invisalign [2] aligners and more.

About Dr. Elyson, Dentist Northridge [1]

After graduating from the UCLA School of Dentistry, Dr. Michel Elyson has enjoyed over 20 years of experience in the field of dentistry with a focus on implants and cosmetic treatments.
