UBM Canon, the Global MedTech Authority, Partners with the World Medical Device Organization, WMDO, to Provide Medical Device Companies with Industry-Related Online Training S...

Bio-Medicine.Org

LOS ANGELES, June 13, 2012 /PRNewswire/ -- UBM Canon announced today that it has formed a new alliance with the World Medical Device Organization [1], WMDO. WMDO, headquartered in Switzerland, and offices in Minneapolis, is the medical device industry's most trusted source of professional online training with a global education program throughout the medical device product lifecycle. UBM Canon's leading MedTech brands, *Medical Device and Diagnostic Industry (MD+DI)* [2] and Qmed [3], are at the forefront of this key partnership.

"We are thrilled to offer our audience access to valuable, turn-key industry certification programs, corporate training, and other online learning resources to help advance their knowledge and skillset in the medical device manufacturing space," stated Stephen Corrick, Executive Vice-President and Managing Director of UBM Canon. "The training solutions and online courses offered by WMDO [1] are world class."

WMDO provides over 150 unique and innovative multimedia training courses [6] covering worldwide requirements applicable throughout a medical device lifecycle. From entry to senior level, WMDO's training solutions cover pre-clinical, regulatory, quality assurance, clinical, post market surveillance, reimbursement and health technology. WMDO's training courses are specifically developed to offer today's medical device professional the convenience, flexibility and cost effectiveness of state-
