OneMedForum takes place January 11-13, 2011 in San Francisco, CA during the world's largest gathering of healthcare financiers and executives. The Forum will feature presentations by over 100 of the world's most promising emerging life science public and private companies. In 2010, over 1,000 investors participated in the conference. To learn more about the forum, visit www.onemedplace.com [4].

About Cardium

Cardium is focused on the acquisition and strategic development of new and innovative bio-medical product opportunities and businesses that have the potential to address significant unmet medical needs and definable pathways to commercialization, partnering and other economic monetizations. Cardium's current investment portfolio includes the Tissue Repair Company, Cardium Biologics, and the Company's in-house MedPodium healthy lifestyle product platform. The Company's lead product candidates include Excellagen™ topical gel for wound care management, and Generx® DNA-based angiogenic biologic for patients with coronary artery disease. In
