Accuray Incorporated to Speak at 10th Annual Needham Healthcare Conference

Bio-Medicine.Org

SUNNYVALE, Calif., March 28, 2011 /PRNewswire/ -- Accuray Incorporated (Nasdaq: ARAY [1]), a global leader in the field of radiosurgery, announced today that its management is scheduled to present at the 10th Annual Needham Healthcare Conference in New York City on Tuesday, April 5, 2011 at 10:00 a.m. ET/7:00 a.m. PT.

A live webcast of the presentation will be available online from the investor relations page of the Company's Web site at http://www.accuray.com [2]. The webcast replay of the presentation will begin approximately one hour after the conclusion of the live presentation and will be available for approximately 30 days.

About the CyberKnife® Robotic Radiosurgery System

The CyberKnife Robotic Radiosurgery System is the world's only robotic radiosurgery system designed to treat tumors anywhere in the body non-invasively. Using continual image guidance technology and computer controlled robotic mobility, the CyberKnife System automatically tracks, detects and corrects for tumor and patient movement in real-time throughout the treatment. This enables the CyberKnife System to deliver high-dose radiation with pinpoint precision, which minimizes damage to surrounding healthy tissue and eliminates the need for invasive head or body stabilization frames.

About Accuray

Accuray Incorporated (Nasdaq: ARAY [1]), based in Sunnyvale, Calif., is a global leader in the field of radiosurgery dedicated to providing an improved quality of life and a non-surgical treatment option for those diagnosed with cancer. Accuray develops and markets the CyberKnife Robotic Radiosurgery System, which extends the benefits of radiosurgery to include extracranial tumors, including those in the spine, lung, prostate, liver and pancreas.
