About OVA1™

OVA1™ is a qualitative serum test that combines the results of five immunoassays into a single numerical score. It is indicated for women who meet the following criteria: over age 18, ovarian adnexal mass present for which surgery is planned, and not yet referred to an oncologist. The test utilizes five well-established biomarkers - Transthyretin (TT or prealbumin), Apolipoprotein A-1 (Apo A-1), beta 2-Microglobulin (beta 2M), Transferrin (Tfr) and Cancer Antigen 125 (CA 125 II) - and a proprietary FDA-cleared software device to determine the likelihood of malignancy in women with pelvic mass for whom surgery is planned. OVA1™ is a trademark of Vermillion, Inc. Additional information about OVA1™ can be found on the Web at www.ova-1.com
