Virtual Industries Announces Show Special for MD&M Minneapolis

MDT Staff

Virtual Industries Inc., a leading supplier of manual vacuum handling solutions, today announced that it will exhibit in Booth #1358 at the MD&M Minneapolis exposition, scheduled to take place October 29-30, 2013 at the Minneapolis Convention Center in Minnesota. The company will offer a free magnifier with the purchase of a SMD-VAC-HP (V8100A-SP8-BD-MAG1 or V8100A-SP8-BD-MAG1-220) or TWEEZER-VAC (TV-1000-SP8-BD-MAG1 or TV-1000-SP8-BD-MAG1-220) within 30 days of the show.

The SMD-VAC-HP System with Foot Switch, Vacuum Pens, Small Parts Tips and Magnifier (V8100A-SP8-BD-MAG1) runs on 12 VDC @ 500mA w/ solenoid. With a precision pump and motor that generates more than 15" of mercury, this tool provides additional pick-up power for handling small to very large size components. The compact tower design takes up a small footprint on the bench.

The TWEEZER-VAC System with Small Parts Tips and Lighted Magnifier is a general purpose vacuum handling tool that plugs directly into 110 Volt 50/60 Hz. This compact unit will handle a wide variety of parts used in the industry today. This kit includes rubber tips for larger items and a set of small parts tips that handle items as small as 150 microns. The long-life diaphragm vacuum pump generates up to 10" of mercury with an open air flow of 2.3 lpm.
