The list represents the most comprehensive look at the most important segment of the economy— America's independent entrepreneurs. In a stagnant economic environment, median growth rate of 2011 Inc. 500|5000 companies remains an impressive 94 percent. The companies on this year's list report having created 350,000 jobs in the past three years, and aggregate revenue among the honorees reached $366 billion, up 14 percent from last year.

"eCardio is honored to be among a prestigious pedigree of other notable alumni recognized for multiple years," said Larry Lawson, President and Chief Executive Officer.

"Our growth over the past year can mostly be attributed to two things: our ongoing desire to continue development of enhanced technology that gives physicians accurate and timely information about their patients; and our focus on providing a positive experience for patients so they can go about their daily routines while wearing a monitor," said Lawson.
