It is recommended that investors pre-register to save time and receive event updates.

About PLC Systems Inc.:PLC Systems Inc., headquartered in Milford, Mass., is a medical device company focused on innovative technologies for the cardiac and vascular markets. PLC's newest product, RenalGuard®, has been developed to help prevent the onset of contrast induced nephropathy(CIN) in at-risk patients undergoing certain imaging procedures. It is already approved for sale in the EU for general fluid balancing. Two investigator-sponsored European studies have demonstrated RenalGuard's effectiveness at preventing CIN. RenalGuard is being studied in a pivotal trial in the U.S., as required for approval by FDA. The RenalGuard System™ consists of a closed loop, software-controlled console and single-use sets that physicians and nurses use for automated matched fluid replacement to minimize over- or under-hydration of patients during medical procedures where creating and maintaining high urine outputs is beneficial.
