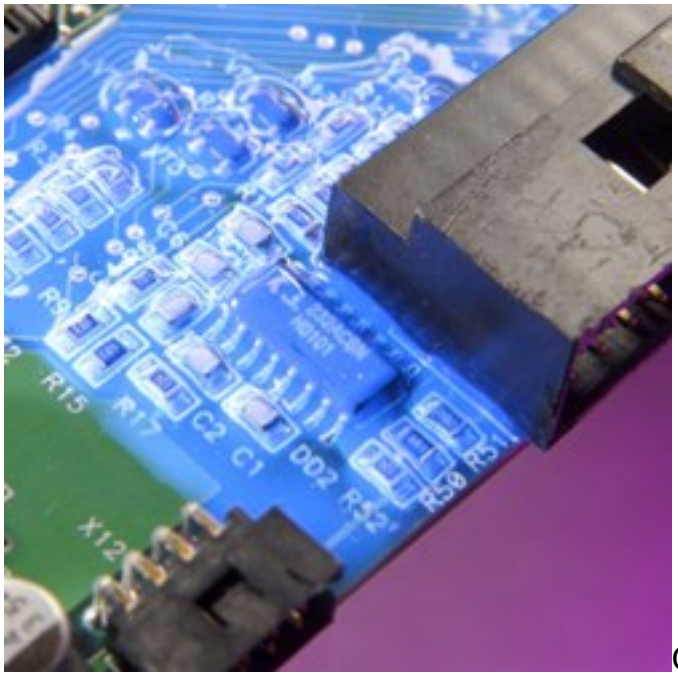
Conformal Coating for Electronics



GERMANTOWN, WI – November, 2011 – Ellsworth Adhesives and DYMAX Corporation announced today the joint launch of E-MAX 903-E, a new light-cure conformal coating.
E-MAX 903-E will be distributed world-wide exclusively by Ellsworth Adhesives. It has been engineered to cure with UV and visible light using DYMAX's broad-spectrum and LED curing equipment [1]. The product also features a secondary moisture-cure mechanism for ambient cure in shadowed areas. E-MAX 903-E offers several competitive advantages including high chemical resistance, low viscosity, and a tack-free cure immediately upon cooling after light exposure.

E-MAX 903-E is now available to Ellsworth Adhesives' customers in the product catalog and online in 30 ml syringes [2], one-liter bottles [3] and five-gallon cans [4] . The new product compliments Ellsworth Adhesives' broad line of 100% solvent-free products from DYMAX, a leading manufacturer of light curing industrial adhesives and curing systems.

Roger Lee, President of Ellsworth Adhesives – ESR group, commented, "We are excited about the joint launch of E-MAX 903-E with DYMAX Corporation. With exclusive distribution rights, our engineering sales force has become well-versed in the new product, and we are confident that E-MAX 903-E will exceed the requirements of our various customers in the electronics industries."

About Ellsworth Adhesives
Ellsworth Adhesives is the world's largest distributor of adhesive products and equipment. Ellsworth Adhesives is a value added supplier of adhesives [5], sealants [6], coatings [7], encapsulants [8], tapes [9], releases and lubricants [10] from leading international manufacturers including 3M [11], Bostik [12], Dow Corning [13], Dymax [14], Emerson & Cuming [15], Fisnar [16], Loctite [17], Lord [18],

Permabond [19], Techcon [20] and many others and offers the most comprehensive level of technical expertise available [21]. Ellsworth Adhesives operates sales offices and warehouses in the United States, Canada [22], Mexico [23], Brazil [24], China [25], Hong Kong [25], Malaysia [25], Australia [26], France [27] and Thailand [28]. Ellsworth Adhesives can be contacted directly at 1-800-888-0698 or by logging onto www.ellsworth.com [28].
