

BioMarin to Present at the Cowen Health Care Conference

Bio-Medicine.Org

NOVATO, Calif., March 1, 2011 /PRNewswire/ -- BioMarin Pharmaceutical Inc. (Nasdaq: [BMRN](#) [1]) today announced that Dan Maher, Senior Vice President of Product Development of BioMarin, will present a company update at the Cowen Health Care Conference in Boston on Tuesday, March 8, 2011 at 8:00 a.m. ET.

Interested parties may access a live audio webcast of the conference call via the investor section of the BioMarin website, www.BMRN.com [2]. A replay of the call will be archived on the site for one week following the call.

About BioMarin BioMarin develops and commercializes innovative biopharmaceuticals for serious diseases and medical conditions. The company's product portfolio comprises four approved products and multiple clinical and pre-clinical product candidates. Approved products include Naglazyme® (galsulfase) for mucopolysaccharidosis VI (MPS VI), a product wholly developed and commercialized by BioMarin; Aldurazyme® (laronidase) for mucopolysaccharidosis I (MPS I), a product which BioMarin developed through a 50/50 joint venture with Genzyme Corporation; Kuvan® (sapropterin dihydrochloride) Tablets, for phenylketonuria (PKU), developed in partnership with Merck Serono, a division of Merck KGaA of Darmstadt, Germany; and Firdapse™ (amifampridine phosphate), which has been approved by the European Commission for the treatment of Lambert Eaton Myasthenic Syndrome (LEMS). Product candidates include GALNS (N-acetylgalactosamine 6-sulfatase), which is currently in Phase III clinical development for the treatment of MPS IVA, PEG-PAL (PEGylated recombinant phenylalanine ammonia lyase), which is currently in Phase II clinical development for the treatment of PKU, BMN-701, a novel fusion protein of insulin-like growth factor 2 and acid alpha glucosidase (IGF2-GAA), which is currently in Phase I/II clinical d
