

Verisante Technology, Inc. Named Top Technology and Life Sciences Company on the TSX Venture Top 50 2012 Ranking

The Associated Press

(<http://www.verisante.com/>)

Verisante Technology, Inc. (<http://www.verisante.com/>) (TSX

VENTURE:VRS)(OTCQX:VRSEF)(PINKSHEETS:VRSEF)(FRANKFURT:V3T) (the

"Company" or "Verisante"), a leader in cancer detection technology,

announced today that the Company has been named this year's top

ranking Technology and Life Sciences Company on the TSX Venture 50.

The TSX Venture Exchange's annual list of its top 50 emerging publicly

traded companies is a ranking of the strongest performers from five

industry sectors. Verisante ranked number one on the list of top 10

leading Technology and Life Sciences companies for the year. Companies

are selected based on four equally weighted criteria - return on

investment, trading activity, market capitalization growth, and

analyst coverage. The results were obtained from data to December 31,

2011.

As the top ranking Technology and Life Sciences Company, Verisante has

been invited to attend the TSX Venture 50 Spotlight event on April 3,

2012 in Toronto, with an opportunity to present to an audience

comprised of portfolio managers, investment bankers, research analysts

and investment advisors.

"The number one ranking by the TSX Venture Exchange underscores the

breakthrough year the Company has had," said Thomas Braun, President and CEO. "The approval of Verisante Aura for use in the key Canadian, European and Australian markets and the industry recognition our technologies have recently received demonstrate that we are moving forward on our commitment to helping healthcare providers save lives through the detection of some of the most common forms of cancer."

Verisante Aura has also recently been awarded Popular Science Magazine's "Best of What's New

Award(<http://www.popsci.com/bown/2011/product/verisante-aura>)" for 2011, and Verisante Core was named one of the top 10 cancer

breakthroughs(<http://verisante.com/news/72/canadian-cancer-society-names-verisante-core-a-top-10-cancer-breakthrough-of-2011-/>)

of 2011 by the Canadian Cancer Society. In addition, the Company was named a finalist for the 2011 Regional Awards for New

Technology(<http://cme-mec.ca/?actionsheet&lidJCKNC-E742G-1W6JA&cid39A7P-BQXJT-NYWII&comactionsheet>)

by the Canadian Manufacturers & Exporters and the National Research Council of Canada.

About Verisante Technology, Inc.

Verisante is a medical device company(<http://www.verisante.com/about/>)

committed to commercializing innovative systems for the early

detection of cancer(<http://www.verisante.com/>). The Verisante Aura

for skin cancer detection(<http://www.verisante.com/products/aura/>) and

the Verisante Core series for lung, colon and cervical cancer

detection(<http://www.verisante.com/products/core/>) utilize a

proprietary cancer detection platform while the operating software and

probe technology are unique to each device. The cancer detection platform was developed by the BC Cancer Agency and tested and refined at the Skin Care Centre at Vancouver General Hospital. This exclusive platform technology allows Verisante to develop and offer a range of compact, non-invasive cancer detection devices that offer physicians immediate results(<http://www.verisante.com/products/aura/>) for many of the most common cancers. The Aura has been approved for sale in Canada, Europe and Australia. The Core has not yet been approved for sale.
