

MD & M East 2012 to Feature FDA and Medical Technology Development Leaders

The Associated Press

Conference: May 21-24, 2012 Exhibition: May 22-24, 2012 Pennsylvania Convention Center, Philadelphia, PA Organizers of the Medical Design and Manufacturing (MD&M) East Conference have announced sixteen focused sessions will be held at the Pennsylvania Convention Center, May 21 - 24, 2012. The conference is part of the East Coast's largest annual event dedicated to medical design and manufacturing professionals, featuring presentations from close to one hundred medical technology professionals and FDA representatives. Supporting organizations include FDA, ASQ, and SPE.

"The MD&M Conference brings manufacturers and suppliers from the medical device community together under one roof. Participants come armed with a strong motivation to collaborate, allowing me as a speaker to effectively address challenges relevant to device industry," said Nitin Salunke, Ph.D., Director, R&D, Cordis Corporation, a Johnson and Johnson Company.

Speakers include both local and headquarter FDA officials, as well as medical technology executives from Abbott, Covidien, Medtronic, Phillips Healthcare, Boston Scientific, Milliken Healthcare Products, EMD Serono Inc., Edwards Lifesciences, Fisher & Paykel Healthcare, Novartis, CR Bard, Smith and Nephew, Haemonetics Corporation, and more.

Sessions are programmed for the following key job responsibilities: - Research and Development - Product Development - Design - Engineering - Quality Assurance - Regulatory Affairs - Manufacturing The conference takes place alongside the MD&M East exhibition. The exhibition features hundreds of medical OEM suppliers, contract design and service providers showcasing design, automation, manufacturing, electronics, components, materials, testing, quality control, R&D, packaging, and compliance solutions. The event also features nearly two dozen complimentary new technology presentations delivered on the exposition floor.

The deadline for discounted rates is April 27, 2012. To learn more, visit <http://www.mdmeastconference.com> or call +1-310-996-9435.
