

Cardica Announces Fiscal 2012 Third Quarter Financial Results

The Associated Press

Cardica, Inc.

(Nasdaq: CRDC) today announced financial results for its fiscal third quarter ended March 31, 2012. Cardica's management will hold a conference call at 4:30 p.m. Eastern Daylight Time to discuss the financial results and provide an update on the company's business.

"We are pleased with our progress in developing our MicroCutter XCHANGET 30," said Bernard A. Hausen, M.D., Ph.D., president and chief executive officer of Cardica. "With the increased financial support resulting from our public offering in February, we look forward to resuming our clinical trial in Europe and subsequently beginning to book initial sales for the XCHANGE 30 in Europe, both in the current calendar quarter. Following extensive testing of this product in excised human tissue, Cardica is now using this novel product in a broad range of surgical procedures ranging from appendectomies to lung resections." Recent Highlights and Accomplishments -- Completed first human procedures using the XCHANGE 30 device in Europe including procedures such as appendectomies, vascular transections, small intestinal and lung resections; -- Applied CE Mark to Cardica's proprietary MicroCutter XCHANGE 30 surgical cutting and stapling system, following completion of design verification; -- Increased cumulative worldwide shipments of PAS-Port@ Proximal Anastomosis Systems to over 27,300 units, with 1,177 units shipped in the fiscal 2012 third quarter; -- Increased cumulative worldwide shipments of C-Port@ Distal Anastomosis Systems to over 12,900, with 275 units shipped in the fiscal 2012 third quarter; and -- Completed an underwritten public offering of approximately nine million shares of Cardica's common stock, for total net proceeds of approximately \$14 million.

automated anastomosis systems, the C-Port@ Distal Anastomosis Systems and PAS-Port@ Proximal Anastomosis System for coronary artery bypass graft (CABG) surgery, and has shipped over 40,000 units throughout the world. In addition, Cardica is developing the Cardica MicroCutter XCHANGET 30, a cartridge-based microcutter device with a 5 millimeter shaft diameter, and the Cardica MicroCutter XPRESST 30, a true multi-fire laparoscopic stapling device designed to be used in a variety of procedures, including bariatric, colorectal, thoracic and general surgery. The Cardica MicroCutter XCHANGE 30 and XPRESS 30 products require 510(k) review and are not yet commercially available in the U.S.

Forward-Looking Statements This press release contains "forward-looking statements" including all statements regarding the continued development, regulatory approval and commercialization of products in Cardica's proposed MicroCutter product line, including the MicroCutter XCHANGE 30, and the timing thereof. Any statements contained in this press release that are not historical facts may be deemed to be forward-looking statements. The words "look forward" and similar expressions are intended to identify forward-looking statements. There are a number of important factors that could cause Cardica's results to differ materially from those indicated by these forward-looking statements, including that Cardica may not be successful in its efforts to further develop or commercialize the XCHANGE 30; that the European clinical trial may not be resumed or completed on schedule, or at all, due to events or difficulties in the development of the microcutter products or otherwise; that Cardica may not complete the development of its planned MicroCutter product line on its anticipated timeframe, or at all, due to regulatory, technical, manufacturing or financial difficulties; that Cardica's current and any future products may never gain any significant degree of market acceptance; that any future Cardica products face development, regulatory, reimbursement and manufacturing risks; that Cardica's intellectual property rights may not provide adequate protection; that Cardica's sales, marketing and distribution strategy and capabilities may not be sufficient or successful to maintain sales in the cardiac business; and that general business and economic conditions may impair Cardica's ability to market and develop products, as well as other risks detailed from time to time in Cardica's reports filed with the U.S. Securities and Exchange Commission, including its Quarterly Report on Form 10-Q for the quarter ended December 31, 2011. Cardica expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein. You are encouraged to read Cardica's reports filed with the U.S. Securities and Exchange Commission, available at www.sec.gov.
