

Intelrad Meaningful Use Module Achieves ONC-ATCB 2011/2012 EHR Certification from ICSA Labs

The Associated Press

DENVER & MONTREAL--(BUSINESS WIRE)--May 29, 2012-- Intelrad(R) Medical Systems, a leader in medical imaging PACS, RIS and workflow solutions, today announced that the Intelrad Meaningful Use Module 2012 has achieved 2011/2012 COMPLETE EHR ONC-ATCB Certification, which designates that the software is capable of supporting providers with Stage 1 meaningful use measures required to qualify for funding under the American Recovery and Reinvestment Act (ARRA).

Intelrad Meaningful Use was certified on May 17, 2012 under ICSA Labs' ONC-ATCB Electronic Health Record program and is compliant in accordance with the criteria adopted by the Secretary of Health and Human Services.

"InteleRIS(TM) has been very well received across North America by radiology practices and imaging centers and we are glad to now announce our Meaningful Use compliance," said Randall Oka, President and Chief Executive Officer at Intelrad. "Intelrad's distributed radiology solutions are designed to streamline the radiology workflow and we are committed to helping our customers improve clinical care delivery." ICSA Labs, an independent division of Verizon, offers vendor-neutral testing and certification. Its electronic health record certification and testing program provides verification that the certified EHR technology supports meaningful use, as well as helps health care organizations protect sensitive and private patient information.

Intelrad Meaningful Use Module is 2011/2012 compliant and has been certified by ICSA labs in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.

For more information, visit www.intelerad.com/mu The additional software relied upon to comply with one or more of the certification criteria include: Apache Server with Open SSL support, MySQL Database Server, PHP version 5 with php5_mcrypt installed, NewCrop, LabCorp Laboratory Exchange, Medline, eMedicine, and WebMD.

About Intelrad Intelrad Medical Systems is a leader in distributed radiology, specializing in RIS, PACS and workflow solutions for healthcare organizations. Intelrad solutions increase productivity and streamline workflow by overcoming technical barriers in distributed and complex environments. Highly scalable, flexible and robust, Intelrad's solutions offer high performance and industry leading customer service and support. Intelrad solutions like KLAS category leader IntelePACS(R) and Frost & Sullivan Healthcare Innovation Award recipient InteleOne(R) are used in more than 800 sites across North America, Oceania and

the United Kingdom.

About ONC Certification The ONC-ATCB 2011/2012 certification program tests and certifies that EHR technology is capable of meeting the 2011/2012 criteria approved by the Secretary of Health and Human Services (HHS). The certifications include Complete EHRs, which meet all of the 2011/2012 criteria for either eligible provider or hospital technology and EHR Modules, which meet one or more - but not all - of the criteria.

About ICSA Labs ICSA Labs, an independent division of Verizon, offers third-party testing and certification of security and health IT products, as well as network-connected devices, to measure product compliance, reliability and performance for many of the world's top security vendors. ICSA Labs is an ISO/IEC 17025:2005 accredited and 9001:2008 registered organization. Visit <http://www.icsalabs.com> and <http://www.icsalabs.com/blogs> for more information.

* This Complete EHR is 2011/2012 compliant and has been certified by an ONC-ATCB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments. Intelrad Meaningful Use Module version 2012 was certified on May 17, 2012.
