

NuVasive to Participate in the Canaccord Genuity Growth Conference

The Associated Press

NuVasive, Inc. (NASDAQ: NUVA), a medical device company focused on developing minimally disruptive surgical products and procedures for the spine, announced today that Patrick F. Williams, Vice President of Strategy and Investor Relations, is scheduled to present at the Canaccord Genuity Growth Conference at the InterContinental Boston Hotel in Boston, MA on Wednesday, August 15, 2012, at 10:00 a.m. ET.

A live webcast of the presentation will be available online from the investor relations page of the Company's corporate website at www.nuvasive.com [1]. After the live webcast, the presentation will remain available on the website for 30 days.

About NuVasive NuVasive is a medical device company focused on developing minimally disruptive surgical products and procedurally integrated solutions for the spine. The Company is the 4th largest player in the \$7.6 billion global spine market.

NuVasive's principal product offering is based on its Maximum Access Surgery, or MAS® platform. The MAS platform combines several categories of solutions that collectively minimize soft tissue disruption during spine surgery with maximum visualization and safe, easy reproducibility for the surgeon: a proprietary software-driven nerve avoidance system and intra-operative monitoring support; MaXcess®, a unique split-blade retractor system; a wide variety of specialized implants; and several biologic fusion enhancers. MAS significantly reduces surgery time and returns patients to activities of daily living much faster than conventional approaches. Having redefined spine surgery with the MAS platform's lateral approach, known as eXtreme Lateral Interbody Fusion, or XLIF®, NuVasive has built an entire spine franchise. With over 75 products today spanning lumbar, thoracic and cervical applications, the Company will continue to expand and evolve its offering predicated on its R&D focus and dedication to outstanding service levels supported by a culture of Absolute Responsiveness®.

NuVasive cautions you that statements included in this press release that are not a description of historical facts are forward-looking statements that involve risks, uncertainties, assumptions and other factors which, if they do not materialize or prove correct, could cause NuVasive's results to differ materially from historical results or those expressed or implied by such forward-looking statements. The potential risks and uncertainties that could cause actual growth and results to differ materially include, but are not limited to: the uncertain process of seeking regulatory approval or clearance for NuVasive's products or devices, including risks that such process could be significantly delayed; the possibility that the FDA may
