About Derma Sciences, Inc. Derma Sciences is a medical technology company focused on three segments of the wound care marketplace: pharmaceutical wound care products, advanced wound care dressings and traditional dressings. Derma Sciences has successfully completed a Phase 2 clinical trial in diabetic foot ulcer healing with DSC127, an investigational pharmaceutical drug under development for the healing of diabetic foot ulcers, and is preparing to begin Phase 3 clinical trials. Its MEDIHONEY® product is the leading brand of honey-based dressings for the management of wounds and burns. The product has been shown to be effective in a variety of indications, and was the focus of a positive large-scale, randomized controlled trial involving 108 subjects with leg ulcers. Other novel products introduced into the \$14 billion global wound care market include XTRASORB® for better management of wound exudate, BIOGUARD® for infection prevention and TCC-EZ™, a gold-standard treatment for diabetic foot ulcers.
