

MIT's Langer helps hatch 25 startups

Mass High Tech: The Journal of New England Technology

Robert Langer has a long history of starting businesses. Through the Langer Lab at MIT, Langer has had his hand in the creation of more than 25 companies. He has 811 (issued and pending) patents to his name and more than 250 businesses have licensed or sublicensed Langer Lab patents, according to a report by the New York Times.
