

NuFACE receives FDA clearance for Trinity Facial Toning Device

News-Medical.net

NuFACE® is thrilled to announce the launch the FDA cleared Trinity Wrinkle Remover, a red light attachment for the NuFACE® Trinity Facial Toning Device. The removable attachment is engineered with advanced LEDs to deliver a precise combination of red and infrared [light therapy](#) [1] treatments to reduce full face wrinkles.

NuFACE® Trinity devices have FDA-cleared microcurrent and LED attachments available for at-home use. Backed by research and clinical studies, NuFACE® Trinity is a simple-to-use, effective, multimodality, handheld device; a virtual anti-aging magic wand.
