

OPKO Health Announces Research Grants from Mexican Technology and Science Council

The Associated Press

MIAMI--(BUSINESS WIRE)--Nov 29, 2012--OPKO Health, Inc. (NYSE: OPK) today announced the award of research grants from the Mexican National Technology and Science Council (Consejo Nacional de Ciencia y Tecnología, CONACYT). The grants will be used by Exakta-OPKO, OPKO's wholly-owned Mexican subsidiary, to advance development of several research projects in ophthalmology, infectious diseases, and oncology.

Phillip Frost, M.D., OPKO's Chairman and Chief Executive Officer, commented, "We believe these grants, along with prior grants from CONACYT, will facilitate research projects that could lead to development of important diagnostic and therapeutic products for Mexico and other countries." About OPKO Health, Inc. We are a multi-national biopharmaceutical and diagnostics company that seeks to establish industry-leading positions in large and rapidly growing medical markets by leveraging our discovery, development and commercialization expertise and our novel and proprietary technologies.

This press release contains "forward-looking statements," as that term is defined under the Private Securities Litigation Reform Act of 1995 (PSLRA), which statements may be identified by words such as "expects," "plans," "projects," "will," "may," "anticipates," "believes," "should," "intends," "estimates," and other words of similar meaning, including statements regarding our product development efforts and the ability of OPKO and Exakta-OPKO to develop important therapeutic and diagnostic products for Mexico and Latin America, including products for ophthalmology, infectious disease and oncology, as well as other non-historical statements about our expectations, beliefs or intentions regarding our business, technologies and products, financial condition, strategies or prospects. Many factors could cause our actual activities or results to differ materially from the activities and results anticipated in forward-looking statements. These factors include those described in our filings with the Securities and Exchange Commission, as well as risks inherent in funding, developing and obtaining regulatory approvals of new, commercially-viable and competitive products and treatments. In addition, forward-looking statements may also be adversely affected by general market factors, competitive product development, product availability, federal and state regulations and legislation, the regulatory process for new products and indications, manufacturing issues that may arise, patent positions and litigation, among other factors. The forward-looking statements contained in this press release speak only as of the date the statements were made, and we do not undertake any obligation to update forward-looking statements. We intend that all forward-looking statements be subject to the safe-harbor provisions of the PSLRA.
