Funding: SurgiQuest locks up \$18.5 million

Mass Device

Milford, Conn.-based medical device maker SurgiQuest secures \$7.5 million in a Series D round as well as an \$11 million credit facility.

SurgiQuest closed an \$18.5 million Series D financing round, raising funds through a mix of equity and debt financing.

The Milford, Conn.-based medical device company develops technology for laparoscopic procedures, with features designed to remove electrosurgical smoke and keep endoscopic imaging instruments' field of vision clear.
