

Panacea Global Announces Its Official Partnership With UICC

The Associated Press

Panacea Global, Inc. ("Panacea") (OTCBB: PANG) a biotechnology company focused on the discovery, development and commercialization of diagnostic products for the management of cancer, announced today that it has joined the Union for International Cancer Control (UICC) in an international partnership also known as its Champions Programme.

UICC works in partnership with corporations and organizations through its Champions programme to support priority programmes that benefit the global cancer community and drive action on a global scale. Other notable partners include Bayer, Roche, GSK, Sanofi and a number of their member organizations.

"We are privileged to be given the opportunity to join this prestigious organization that is playing an important role in fight against cancer", commented Dr. Moshiri, Panacea's President and CEO. "This partnership will be valuable to Panacea's plans to further promote its revolutionary cancer diagnostic technology within the global medical community.

Panacea Global's President & CEO, Dr. Moshiri has had the honour of joining UICC's most recent global roundtable meeting held on January 16th, 2013 in Washington D.C. The roundtable event was co-hosted by the UICC and the American Society of Clinical Oncology (ASCO) on the topic of personalized medicine.

About the Union for International Cancer Control (UICC)

The Union for International Cancer Control (UICC) is a membership organization that exists to help the global health community accelerate the fight against cancer. Founded in 1933 and based in Geneva, Switzerland, UICC's growing membership of over 760 organizations across 155 countries, features the world's major cancer societies, ministries of health, research institutes and patient groups. Together with its members, key partners, the World Health Organization, World Economic Forum and others, UICC is tackling the growing cancer crisis on a global scale. About Panacea Global

Panacea Global is a biotechnology company focused on the development and commercialization of diagnostic products for the management of cancer. Panacea has developed an accurate, timely, cost effective and non-invasive early cancer detection test to increase the quality of life of cancer patients and ultimately saving lives. Panacea's test is based on the detection of the human aspartyl (asparaginy) beta-hydroxylase (HAAH), a novel biomarker expressed in malignant cancer cells in
