

Samsung puts more skin in medtech, nabs NeuroLogica in closed-doors deal

Mass Device

Global electronics giant Samsung acquires imaging devices maker NeuroLogica in a stealthy deal that further expands Samsung's growing interest in the medtech space.

Technology titan [Samsung Electronics](#) [1] (LON:BC94 [2]) made new moves in the medical device space with the stealthy buyout of Danvers, Mass.-based imaging devices maker NeuroLogica.

The companies didn't provide many details on the closed-doors deal, but the acquisition fits into Samsung's larger vision to "explore new avenues of growth in the healthcare business."
