

Virginia G. Piper Charitable Trust Awards \$4.6 Million in Grants

The Associated Press

PHOENIX--(BUSINESS WIRE)--Jan 24, 2013--Virginia G. Piper Charitable Trust today announced grants totaling more than \$4.6 million—funds that will help enrich Maricopa County communities in areas related to: arts and culture, disadvantaged children, healthcare and medical research, older adults, and strengthening the nonprofit sector. Of the \$4.6 million awarded during the period November 2012 through January 2013, more than \$2.8 million will support significant service enhancements of three of Maricopa County's valued healthcare providers.

"We must understand the ways healthcare can improve patient outcomes through innovative practices. Adelante Healthcare, John C. Lincoln Health Network, and Scottsdale Healthcare exemplify the leadership required to advance all facets of healthcare to new levels," said Judy Jolley Mohraz, president and CEO, Virginia G. Piper Charitable Trust.

Adelante Healthcare, a comprehensive primary healthcare provider serving more than 30,000 patients annually through its seven clinics, received a \$325,000 grant to enhance the pediatric division at its Mesa location. Enhancements will include the integration of an innovative healing arts program—the first of its kind in the nation for a community healthcare center. The clinical environment will incorporate visual and interactive art elements that are designed to improve patients' health outcomes.

John C. Lincoln Health Foundation received a \$500,000 grant to support the establishment of a geriatric trauma unit. The specialty unit located at John C. Lincoln North Mountain Hospital and named " G-60 " will provide state-of-the-art care for trauma patients age 60 and older. Research shows that high quality and fully coordinated emergency healthcare service greatly reduces morbidity and mortality rates for older adult trauma patients. The G-60 unit will be the first of its kind in Arizona and is slated to begin construction shortly.

Scottsdale Healthcare received a \$2,000,000 grant to support the addition of the Cancer Transplant Institute to the Virginia G. Piper Cancer Center. The Institute provides a comprehensive in-patient and out-patient blood and marrow transplant program with the most progressive cancer treatments available. The Cancer Transplant Institute conducted its first transplant in February 2012, and since then, has successfully completed 80 transplants.

Grants awarded November 2012 through January 2013 include (listed by grantmaking area): ARTS AND CULTURE—TOTAL AWARDED: \$555,749 Arizona Community Foundation / www.azfoundation.org Support coordination of the Arizona Cultural Data Project. \$15,000 / 12 months Arizona Opera / www.azopera.org
