

SpectraScience CEO Interviewed by Corporate Profile(R)

The Associated Press

SpectraScience, Inc. (OTCQB: SCIE) CEO Michael P. Oliver, was recently interviewed on the popular broadcasting website CorporateProfile.com, an online financial news company providing retail and institutional investors with insight into the companies that are making headlines through its unique and entertaining platform. To view go to www.corporateprofile.com or <http://www.corporateprofile.com/?p=4561>

In the interview, Mr. Oliver discussed the Company's technology that can determine cancers and pre-cancers without physically removing tissue from the body, as well as the company's undervalued stock and its growing revenue stream.

SpectraScience, Inc., a San Diego-based medical device company, recently completed training of the PENTAX Europe sales teams in Germany and Belgium on the WavSTAT4 Optical Biopsy System. The sales training effort follows the successful completion of training PENTAX technicians on the installation and maintenance of WavSTAT units at hospitals in several countries in Europe.

In addition to the sales training, WavSTAT technology was demonstrated in the PENTAX booth at the German Society of Digestive and Metabolic Disease Conference in Hamburg, September 19-22. The conference was attended by leading gastroenterologists and abdominal surgeons, and represented the first opportunity to feature WavSTAT at a major professional event in Germany.

About SpectraScience, Inc. SpectraScience is a San Diego-based medical device company that designs, develops, manufactures and markets light-based analysis systems capable of determining whether tissue is normal, pre-cancerous or cancerous without physically removing tissue from the body. The WavSTAT Optical Biopsy System uses light to optically diagnose tissue and provide the physician with an immediate analysis. With approval for sale under the CE Mark for the European Union, the WavSTAT System is the first commercially available product that incorporates this innovative technology for clinical use.

Forward-Looking Statements This press release includes statements that may constitute "forward-looking" statements, usually containing the words "believe," "estimate," "project," "expect" or similar expressions. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements inherently involve risks and uncertainties that could cause actual results to differ materially from the forward-looking statements.
