MedShape raises \$11M

Mass Device

MedShape says it's raised \$11 million to help develop its pipeline of shape memory devices.

MedShape Inc. said it raised \$11 million to advance its pipeline of shape memory devices.

The Atlanta-based medical device company said the proceeds will go toward "further development and commercialization of pipeline products," including the launch of its Eclipse soft tissue anchor.

That device [won 510\(k\) clearance from the FDA](#) [1] in March.
