

Privacy At Stake As Sites Track Online Preferences

Submitted by Guest (not verified) on Fri, 01/28/2011 - 10:41am

Sites like Bit.ly, which provide a service to users by shortening URLs, also get something in return — users' browsing preferences. Bit.ly's Hilary Mason talks about the services sites hope to provide by collecting such data, and the trade-off of less privacy for a more customized online experience.
