

SciFri 021712 Hour 2: New Nuclear Reactors Approved, Concrete, Digital Dictionaries

Submitted by Guest (not verified) on Sun, 02/19/2012 - 8:40pm

Federal agency approves a license to build two nuclear reactors, a look at concrete--from its use in the Paleolithic Age to modern greener alternatives, and a linguist unveils thousands of audio recordings of words and sentences from dying languages.
