

SciFri 061512 Hour 1: Emergency Contraception, Microbiome Project, Bacterial Armor, Sylvia Earle

Submitted by Guest (not verified) on Mon, 06/18/2012 - 12:36pm

How the morning-after pill works, scoping out the trillions of germs that call the healthy human body home, seeing a bacterial protective protein coat, and a tour of Sylvia Earle's desk.
