

www.millipore.com/healthcare

Visit www.millipore.com/healthcare for a comprehensive listing of information on diagnostic assay materials, medical membranes, filter devices, and kit packs. Millipore's **OEM Healthcare Division** offers one of the largest selections of membranes, manufactured to the highest standards of quality and consistency, for clinical diagnostic assays. With the broad line of Hi-Flow® Plus nitrocellulose membranes, Millipore continues to expand its portfolio of unbacked lateral flow diagnostic membranes, laminated cards, and assembly kits for the clinical diagnostic manufacturer.

For medical device manufacturers, Millipore manufactures filtration and venting membranes to the same exacting specifications as the membranes used in all of its BioPharmaceutical products.

You have access to Millipore's technical experts to help you bring product concept to reality and assist in optimizing your medical products. Our team will support you through development, pilot processing and manufacturing techniques.

Millipore is a multinational bioscience company that provides technologies, tools and services for the development and production of new therapeutic drugs. It serves the life science, biotechnology and pharmaceutical industries. For more information, visit www.millipore.com.
