

Custom Lid Stock

Company offers a wide range of peelable and weld seal lid stock to complement its formable web films. The lid stock ranges from CR (child-resistant) aluminum/ paper lidding films to custom peelable films for virtually any blister application. These include soft to hard temper unsupported aluminum lidding films with in-house roto gravure printing capabilities up to four colors. Tekni-Films is a leading supplier of blister films for the pharmaceutical, OTC and nutritional markets.
