

Coaxial Cable Stripper

Designed for portability and weighing only two pounds, Model 824 is a durable cable stripper that strips materials from 0.03 in. to 0.43 in. OD, including RGU, semi-rigid, plenum, and heliax. With an all metal cutter head for longevity, it can strip up to 4 levels in less than 5 seconds and is widely used by major telcoms for installation of 734, 735, RG58, RG59, and HDTV cables. With its one-step stripping action, the 824 is an ergonomic, reliable solution for remote or field cable installation jobs.
