## **Load Cell/Transducer Indicator**

This system is a combination of the TLL (Tension Load Cell) and the PHM-100 Portable Hand-Held Transducer Indicator. This system is suitable for a variety of industrial and OEM force measurement and weighing applications. The PHM-100 has Peak Hold feature that captures at less than one millisecond, and operates on a 9-volt battery for 60 hours. The TLL is a tension in line load cell constructed from stainless and is offered in a variety of ranges from 5K lbs. to 50K lbs. Accuracies are consistent with highly accurate strain gage based load cells.
