

Wire Stripper/Twister (1291)

Published on Medical Design Technology (<http://www.mdtmag.com>)

Wire Stripper/Twister (1291)

Using a single carbide rotary blade, the C100S Rotary Wire Stripper and Twister processes solid and stranded wire, Teflon, PTFE, PVC, nylon, and KEL-F between 0.031 in. to 0.228 in. OD. Both blade depth and strip length can be swiftly and smoothly adjusted while the machine is running.

• 115 V, 60 Hz or 220/240 V 50 Hz

• Maximum strip length: 1 1/2 in.

• CE marked
