

Miniature Clamps (1443)

Published on Medical Design Technology (<http://www.mdtmag.com>)

Miniature Clamps (1443)

These clamps and rings are designed for medical applications. They are designed for outside diameters as small as 2.5 mm to assure leak-free sealing and fastening solutions. The clamps are suitable for hose supply lines with chemicals, ink, liquids, and gases.

• Vibration proof

• In line with ISO/TS 16949 guidelines
