

Assembly System

Booth 219 Similar to the company's four larger ServoPress assembly systems that feature 100% in-process control and monitoring, Model 405/4000 offers 180 lbs. peak load, up to 5.9 inches of ram stroke, and maximum ram speed of 11.8 inch/second. SCHMIDT ServoPress Systems, unlike other industrial servo actuators, are fully configured and plug & play ready.
