

Catalog of Chromatography and Fluid Transfer Products

The Upchurch Scientific/Rheodyne 2005 *Catalog of Chromatography and Fluid Transfer Components* is available. For the first time, the annual catalog includes valves, pumps, and accessories from sister IDEX Corporation Precision Flow Products business units Rheodyne, Ismatec, and Micropump. The catalog offers a wide array of nanoscale to preparative scale fluidic components for analytical, biotechnology, and diagnostic lab applications. Information: www.upchurch.com
