

## **Absolute Wire Draw Encoders**

BTF absolute wire draw encoders provide resolution up to 0.025 mm and are designed for measuring lengths up to 50 m. The combination of the wire draw mechanism and absolute encoder enables made-to-measure solutions for almost any application profile. These wire draw encoders are available with a number of interface options, including SSI, Profibus, CANopen, and DeviceNet fieldbus technology, to satisfy various application requirements.
