

## Oscillator

The RV-8564-C2 real time clock module combines a 32.768 Hz timing crystal with a CMOS oscillator circuit in an ultra-small SON 10-pin ceramic package. The unit measures just 5.0 x 3.2 x 1.2 mm. Offering high stability and very low current consumption, it is ideal for portable and compact medical devices. It is 100% lead-free.
