

Medical Electrical Safety Analyzer

The Rigel 266 plus is a highly compact, easy-to-use medical electrical safety analyzer designed to test in accordance with IEC/EN 60601-1, MDA DB9801, and AS/NZ 3200. Providing for both semi-automatic and fully manual medical test routines, the Rigel 266 plus lets the user easily select routines via an intuitive rotary select switch and dedicated push buttons for individual single fault condition. A sequence of leakage measurements can be selected without requiring a power break, providing a quick test solution for medical equipment requiring a power-up/down delay time.
