

PVC-Polyurethane Comparison Chart

The PVC-Polyurethane Comparison Chart from NewAge Industries Inc., shows the similarities and differences between these two popular plastics as they relate to tubing and hose manufactured by the company. The chart was recently updated to include the latest information and specifications. It was developed to help tubing and hose buyers understand the critical differences between the performance properties of PVC and polyurethane. By combining this important information into one, easy-to-read chart, buyers can quickly see the variations that can assist in the decision-making process. *Information:* www.newageindustries.com [1].
