

## Web-Enabled Switches

Using PARTsolutions, NKK Switches has Web-enabled a partial collection of M Series Toggles, M Series Rockers, LB Series Illuminated and Non Illuminated Pushbuttons, and the SmartSwitch LCD programmable switches, all of which are available immediately, representing over 125,000 viewable configurations. The catalog will grow over time, allowing prospective customers to graphically configure components with the sizes, features, and colors they need. *Information:* [www.nkkswitches.com](http://www.nkkswitches.com).
