

Enclosures Line Expanded

The DIATEC range of wall mounting enclosures has been expanded with two new models molded in lava (dark grey) ABS. The models are particularly suitable for wall or machine mounted applications. The cases have a modern contoured design with a central control panel for mounting a membrane keypad, display module, or push-button switches. The cases are also available with hinged lids to protect this area. The DIATEC range has external dimensions of 8.26 inches x 7.87 inches x 1.89 inches (size S) and 10.63 inches x 7.87 inches x 1.89 inches (size M).
