

# Modular Conveyor Brochure

The Linear Motion and Assembly Technologies group of Bosch Rexroth Corp. offers its VarioFlow Modular Conveyor brochure to help machine builders, integrators, and end-users design and implement flexible conveyor systems for a wide range of material handling and packaging applications. The brochure contains information about flexible chain styles and widths; profiles and guides for unique layouts; drives and gearmotors for lower energy usage; UltraCurve technology to minimize friction; workpiece pallets for special applications, and other conveyor components that reduce setup time and improve conveyor performance. *Information:*
