

# **System Serves as Pegboard, Slat Wall, and Bin Rail**

The Adjus SlatWall and UpRight System is incredibly durable and collectively serves as pegboard, slat wall, and bin rail. The SlatWall slides easily between workstation UpRights, and accommodates standard pegboard and slat wall hooks and hanging storage bins. The patented SlatWall design can accommodate all Details by Steelcase as well as all Uni-Web accessories. The SlatWall System is fully customizable and versatile, enabling it to be useful in many work environments, including in the cleanroom. The Adjus Upright System is made from 100% recycled aluminum, 25% post consumer steel, and easily and securely attaches to any existing work surface from 0.75" to 1.75" in thickness, without any drilling.
